

## ZEPHYR STORM SOCKETS IP65

### Features

- Zephyr Lockable Encapsulated Weather Protected Socket with IP66 rating for outdoor durability.
- Designed for padlockable security (padlock not supplied) to safeguard power connections.
- Constructed from high-impact UV-resistant polycarbonate for long-lasting use.
- Compact and easy-to-install, measuring 175mm wide, 155mm tall, and 80mm high, and includes a base for surface mounting.
- Versatile applications: Ideal for securing outdoor appliances in public venues, home use with electric mowers and water blasters.
- Offers a childproof locking feature and provides a solution for 15 amp spa pools, enabling plug, lock, and leave convenience.
- Need to use side entry plug to enable lid to be closed.
