

ZEPHYR FLOAT SWITCH 10M NEOPRENE

Features

- 10-meter Neoprene cable with high flexibility.
- Rated at 230 volts and 16 amps with silver contacts.
- IP68 rated for protection against dust and water.
- Operates reliably at temperatures up to 50°C.
- Resilient against water, oils, grease, and sewage immersion.
- Exhibits excellent tensile strength and weathering resistance, suitable for outdoor use.

Additional note:
- Consider using a second float switch in sumps and tanks with toxic fluids for a warning light and spillage safety.

Product Information
